Date: May 12th, 2015
RE: City of Kingman Street Department Chip Seal Project.

The City of Kingman Street Department is scheduled to start its chip seal project **Sunday May 17th, 2015**. The chip seal work should take 2 weeks to complete depending on weather conditions. Chip seal placement will be between 4:00 am and 5:00 pm and City street sweepers will work from 10:00 pm to 6:00 am. During this time motorists are asked to use alternative routes to avoid delays. Reduced speed limits will be posted on streets being chip sealed for the safety of the public and workers. Residents on streets scheduled for chip seal are asked not park in the City of Kingman Right of Way and keep water from running onto streets from sources such as irrigation or washing vehicles. A list of streets and a schedule have been provided below. **These dates are subject to change dependent upon weather and project conditions.**
